OVERVIEW

I'm a developer who enjoys learning new things and taking on challenges. Through real projects and teamwork, I've been improving myself step by step, and I want to use my creativity and problem-solving skills to make a positive impact on the team

WORK EXPERIENCE

(8/2024 - 2/2025) **Intern Web Developer**

- **Company:** FPT Software
- **Project:** Healthcare System (Japan-based Client)
- **Domain:** Healthcare
- **Tech Stack:** Spring Boot, Angular, SQL Server
- **Description:**
 - Migrated a legacy healthcare system to a modern web platform using Angular and Java Spring
 - Developed modules for managing patient records, appointment scheduling, and medical reports.
 - Built and integrated RESTful APIs to handle medical and scheduling data.
 - Resolved UI/UX issues and conducted basic feature testing to ensure functionality.

SKILL & BACKGROUND KNOWLEDGE

Soft Skills: Self-learn, Problem-solving , Presentation,

Tools: Git, Postman, MongoDB, MySQL

Programming: Java, JavaScript, TypeScript

Languages: Vietnamese: Native, English: Basic

Framework & Library: Spring, Angular, React, Angular Material, Ng-Zorro, Ant Design, NgRx

PROJECTS

CINEMA RESERVATION SYSTEM

(6/2025 - 8/2025)

- **Tech stack:** Spring, Angular, MySQL , Redis, Ng-Zorro, NgRx
- **Description:**
 - Users can register and login, browse movies and showtimes, select seats, and place orders with VnPay integration. Admins can manage movies and showtimes
 - Supports seat-hold with a realtime countdown timer using Redis for expiration handling. The countdown is displayed on the frontend and updated in real time via STOMP and NgRx manages client-side state for consistent and reactive updates.

E-COMMERCE APPLICATION

(4/2025 - 6/2025)

- **Tech stack:** Spring, Angular , MySQL, Angular Material
- **Description:**
 - Users can register and authenticate via Keycloak, manage cart, and create basic orders. Using Redis for caching and improved performance.
 - Admins manage categories, products and users and handler order management with dynamic queries for filtering, file export features, and status updates.

EDUCATION

University of Transport and Communications (UTC)

9/2025 - Present

Bachelor of Information Technology

FPT Polytechnic College

8/2022 - 5/2025

Major: Web Developer

GPA: 3.7/ 4.0

Specialization: Front-End Web Developer
